JOCAVI®

Portuguese company specialised in developing and manufacturing acoustic treatment panels for the professional audio industry.
We always look for originality, technological innovation, durability, cost and promptness to present our products. We have therefore generated a vast organisational wealth because we share Quality with those who are quality-oriented.
The use of acoustic products in working environments, by taking into account the needs and the modern corporate images, is our passion.
JOCAVI® has a varied and thorough offer of high quality products available, which enable a wide range of applications.
Our range of products offers the designer a large variety of solutions. Several types of absorption and diffusion panels deliver an excellent performance in the diverse areas of application.
